

Acknowledgement of our Reviewers

Fernando Carrera

Editor-in-Chief

The final issue of the year gives me my annual chance to thank all the authors who chose our pages to publish their scientific work. Since our switch to English only in 2007, we have had an increasing amount of manuscripts submitted and submissions from an ever-widening number of both national and international institutions. This is extremely gratifying.

The switch also made possible the contributions of a wide variety of reviewers from different countries. This is something which has undoubtedly contributed to improving the standard of our Journal. My thanks are thus due to all those who have played a part in the life of our Journal, and I would like to stress how much their fine work is appreciated in Portuguese nephrology.

The Editor-in-Chief is grateful to the following reviewers who kindly reviewed manuscripts for Volume 24 in 2010.
